Emperor Handguards

HG6 Adventure / Enduro Style Handguard

This is a premium quality handguard that has a pair of high impact resistance plastic guards with highly polished silver anodized, aviation grade aluminium bars. The shape of the bar will comfortably allow the use of large (standard) clutch and brake levers yet keeps the bike as narrow as possible for squeezing through them tight spots. The drop down portion of the bar will allow for the rider to comfortably roll the throttle on without the aluminium bar restricting the grip on the throttle. The plastic has an aggressive modern style and will also give greater protection.

Note: Mounting Kits are sold Separately

Available in: Black, Blue, Green, Orange, Red & White.

This Handguard fits the following bikes

Aprilia - Pegaso, RXV450, RXV550, SXV450, SXV550

Emperor Handguards

Emperor Racing Inc enduro and adventure handguards are made from Aviation grade aluminium. The aluminium handguard bars have been CNC machined, formed, hardened, anodized and then polished for a nice chrome finish. The plastic cover has been tested under harsh conditions for stress, strength and durability and has passed with flying colours. We believe that the quality of the Emperor Racing handguards, coupled with affordable pricing and good service is what our customers want. The Emperor Racing handguards are stylish, robust and an essential accessory for your bike.

Emperor HG Mounting Kits

Emperor Racing has a good range of premium quality handguard Mounting Kits. The Mounting Kits are CNC machined from a billet of aviation grade aluminum. The range is designed to fit most handlebars on the market today. Each handguard mounting kit has a comprehensive guide on the reverse side of the packaging to indicate which handguard mounting kit will fit which handlebar. If you purchase a mounting kit for a KTM, an angled swivel is also needed to get around obstacles like the Brembo Clutch and other cables. Ref. MK-03 AS

We also have a Triple clamp Mounting Kit for those that want an alternative mounting point. All Mounting Kits are supplied with Insert Kits.

HG-6 Replacement Plastics

A pair of replacement plastic guards made from a high impact resistant plastic. The plastic guard is to be used to replace the plastic on the HG2 or with the HG2-AB.

Note: Aluminum bars and Mounting Kits are sold Separately

Available in: Black, Blue, Green, Orange, Red, White & Yellow.

Plastic only

HG-1 Replacement Aluminum Bars

A pair of highly polished silver, anodized, aviation grade aluminum 6061 T6 replacement bars which have been heat treated. The bar has been specially designed and machined to allow for adjustment when fitting the mounting kits. The unique shape accommodates larger clutch and brake levers. The drop down style gives a better feel when cornering and rolling on the throttle.

HG-6 Replacement Aluminum Bars

A pair of highly polished silver, anodized, aviation grade aluminum 6061 T6 replacement bars which have been heat treated. The bar has been specially designed and machined to allow for adjustment when fitting the mounting kits. The shape of the aluminum handguards is designed to give the rider the ultimate protection but at the same time giving a compact fit. This allows the rider to ride in tight single track trails.

IK Insert Kit

The replacement insert kit comes with both size inserts. The 14 mm insert will fit most popular handlebars on the market. The 18 mm sleeves are there for the steel bars as they have an 18 mm inside diameter hole in the handlebar.

AS Angled Swivel

The angled swivel is used when one needs to increase the clearance around the clutch or brake hose area. It replaces the straight 45 mm swivel that comes standard with the mounting kit. The angled swivel can also be purchased with a kit (MK-01 AS or MK-03 AS).

Emperor Heavy Duty Skid Plates

The Emperor Heavy Duty Skid Plate, in our opinion, is the best skid plate available on the market today. With a 3/16" thick aluminum construction, hand Tig welded wings (full length both sides) with a Emperor logo carved into each side for the bling, aluminum mounting brackets and high-grade metric fasteners, you simply can't go wrong. Also comes with 1/4" thick x 3/4"W foam tape to place between the frame and skid plate for a nice snug fit that will eliminate any possible vibrations. To complete the ultimate package, a block of open cell foam is also supplied to place between the skid plate and the engine to reduce the build up of material between the skid plate and engine case. This is the perfect product for the hard core off road rider.

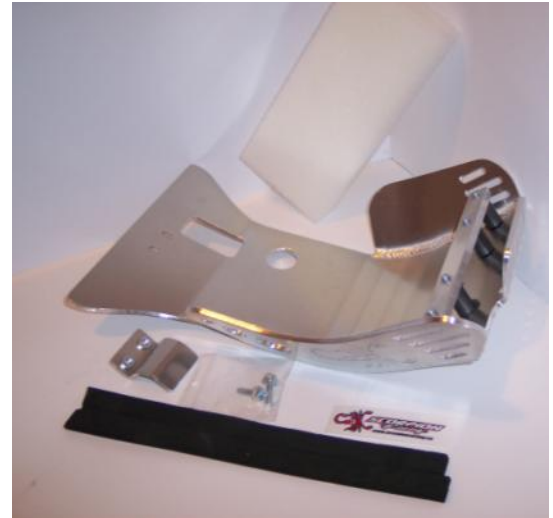

PRODUCT FEATURES:

- MANUFACTURED OUT OF HIGH GRADE 3/16" ALUMINUM MAKES THE EMPEROR HEAVY DUTY SKID PLATE ARGUABLY THE STRONGEST SKID PLATE AVAILABLE
- BOTH SIDE AND BOTTOM PROTECTION AGAINST IMPACT.
- 4 BOLT FRONT MOUNTING ELIMINATING MOUNTING BRACKETS FROM BENDING WHEN SKID PLATE TAKES AN HARD IMPACT (MOST MODELS).
- NO NEED TO REMOVE SKID PLATE TO CHANGE OIL.
- SNUG FIT SPACERS MAKE THIS SKID PLATE QUICK AND EASY TO INSTALL
- FRONT VENTED MUD GUARD (HELPS TO KEEP THE MUD OUT)
- FOAM TAPE TO PUT BETWEEN THE FRAME AND SKID PLATE FOR A NICE SNUG VIBRATION FREE FIT
- OPEN CELL FOAM TO PUT BETWEEN THE SKID PLATE AND ENGINE CASE TO ELIMINATE THE BUILD UP OF DIRT AND MUD ADDING WEIGHT TO YOUR BIKE.
- EMPEROR SCORPION ENGRAVED IN EACH WING FOR SOME BLING FACTOR.
- PROUDLY MADE IN CANADA.

Billet Radiator Guard

Do you want a strong easy to install Radiator Guard? Well here it is!!

The Emperor Racing "Billet Radiator Guard" is machined out of 1/4" T6 aluminum and is hand TIG welded together. Features an easy 30min installation with all the needed hardware supplied. What is great about this design is it will fit with oversized radiators, oversized fuel tanks, cooling fan kits and will not make you bike wider then stock. Also no plastic trimming required. Lastly the reason for the (patent pending) one piece design is to offer fold back protection brace without having anything on the back. Protection goes below the radiator tanks and offer an "L" like angle support across the bottom, which is also wrapped around or hooked around the frame down tube making this guard our strongest design to date.

PRODUCT FEATURES:

- MANUFACTURED OUT OF HIGH GRADE 1/4" T6061 ALUMINUM MAKES THE EMPEROR BILLET RADIATOR GUARD ARGUABLY THE STRONGEST GUARD AVAILABLE.
- ONE PIECE DESIGN OFFERS BACK BRACE FOR FORWARD MOVING IMPACTS (EVER CRASH WHILE MOVING FORWARD?)
- STAGGERED HORIZONTAL PUNCH PATTERN MAXIMIZES AIR FLOW GIVING THE EMPEROR RADIATOR GUARD THE BEST AIR FLOW ON THE MARKET.
- BOTH SIDE AND FRONT PROTECTION AGAINST IMPACT.
- QUICK AND EASY TO INSTALL IN 20MIN
- NO INTERFERENCE ISSUES WITH OVERSIZED RADIATORS
- NO INTERFERENCE ISSUES WITH OVERSIZED FUEL TANKS
- NO INTERFERENCE ISSUES WITH COOLING FAN KITS
- NO PLASTIC TRIMMING AND DOES NOT MAKE YOUR SHROUDS STICK OUT

Emperor Radiator Guard

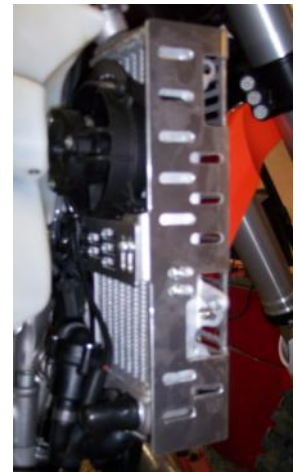

Nothing sucks more than fluids gushing out of your motorcycle in the middle of the bush miles from rescue just because of a poorly placed rock or tree and a little bad luck. Protect your radiator (and your bank balance) with a Emperor Radiator Guard. The Emperor Rad Guard will protect the front and side of your radiator against impact due to a crash or flying projectiles from the bike in front of you or brush that seems to want to spear your radiator. We created a staggered horizontal punch pattern that provides maximum airflow to reduce the possibility of overheating.

PRODUCT FEATURES:

- MANUFACTURED OUT OF HIGH GRADE 1/8" ALUMINUM MAKES THE EMPEROR RADIATOR GUARD ARGUABLY THE STRONGEST GUARD AVAILABLE.
- STAGGERED HORIZONTAL PUNCH PATTERN MAXIMIZES AIR FLOW GIVING THE EMPEROR RADIATOR GUARD THE BEST AIR FLOW ON THE MARKET.
- BOTH SIDE AND FRONT PROTECTION AGAINST IMPACT.
- QUICK AND EASY TO INSTALL.
- PROUDLY MADE IN CANADA.

Note: most Suzuki radiator guards have a bend in the left side front bottom to miss the front fender when steering. At times this bend is being mistaken for shipping damage but is in fact part of the design.
